TO: Cooperative Extension Educators and Staff with 4-H Animal Science Responsibilities

RE: Animal Science Education and Equipment Resource Grants

The Youth Extension Staff team in the Department of Animal Science is pleased to announce availability of funding for the 10th year in a row! Thanks to the New York State 4-H Foundation Willman Fund, we are able to offer \$100 resource grant scholarships to every extension association in New York State that engages youth in animal science programming.

This **opportunity** has a time limit that expires in December 2011. What does this mean for you? This is your county's chance to spend up to **\$100 right now** on animal science educational resource materials of your choice. Every county can qualify!

What's the catch? The resource/s that you purchase **must be approved by** at least one of the extension support specialists named at the end of this letter.

How do you apply? Simply complete the attached **simple 1 page application** and return it via e-mail, fax or hard copy mail by December 1, 2011. Up to \$100 will be credited to your county association's Cornell account. It is that easy!

Once you receive e-mail or verbal approval, simply order the resources of your choice and send proof of purchase (copy of a receipt or bill) that you ordered recommended resources. We will then process the transfer of funds to your Cornell account!

If you need more assistance making choices about what to buy or how to order it, you may contact any one of the individuals below. Help make the 4-H youth animal science program in your county stronger! **Remember to apply by DECEMBER 1, 2011!!**

Sincerely,

Debbie Grusenmeyer – Extension Associate Youth Dairy Cattle Specialist djc27@cornell.edu

Jeannie Griffiths – Extension Associate Equine Specialist jtg4@cornell.edu

Dana Palmer – Sr. Extension Associate for Youth Programs (Beef, Sheep, Dogs, Rabbits and other companion animals) dlp10@cornell.edu

tatiana Stanton – Extension Associate Small Ruminant Specialist tls7@cornell.edu
